

ORIANA CHACON

FRONT END DEVELOPER

EXPERIENCE

React Developer

Cliengo Argentina | 2022 - 2023

- Enhanced user retention and engagement through innovative chatbot interactions in React, becoming a key component of the user experience.
- Enhanced project consistency and reduced development time by designing reusable UI components, improving application maintainability and scalability.
- Contributed to successful app deployment on Amazon Web Services, boosting system scalability and reliability.

Front End Developer - Client: Adobe

Endava. Argentina | 2021 - 2022

- Leveraged data analytics to design interfaces tailored to user needs, achieving seamless concept-to-functionality translation.
- Developed and maintained user-facing websites using HTML, CSS, JavaScript, and React, upholding best practices and modern web standards.
- Innovated in the creation of UI components characterized by reusable code, thereby significantly enhancing user experience through an emphasis on modularity, scalability, and maintainability.

React Native Developer - Client: Varsity

Endava. Argentina | 2021 - 2021

- Developed a mobile application with React Native, delivering a seamless cross-platform user experience.
- Worked closely with UX and UI designers to incorporate user-centric design elements, enhancing app usability and customer satisfaction.
- Pioneered the development of the application from the ground up, playing a crucial role in the architectural design, which laid the foundation for a robust and scalable solution.

Full Stack Developer

Seed. US | 2020 - 2020

- Successfully led the development and delivery of a fully functional MVP on time, showcasing leadership and technical prowess.
- Designed and implemented the user interface with React, significantly improving the application's usability and visual appeal.
- Spearheaded the development of RESTful APIs with Node.js and Express, enhancing data manipulation capabilities and bolstering the MVP's performance.

Full Stack Developer

Accenture, Argentina | 2019 - 2020

- Contributed to the design and development of web solutions and applications using Amazon Web Services, JavaScript frameworks, SQL, and NoSQL databases, with a focus on enhancing front-end functionalities using React.
- Shared knowledge and practical insights on React with team members, facilitating their learning process and adoption of the library despite having only two years of experience, thereby bolstering the team's overall front-end development skills.
- Implemented unit testing and integration testing to validate functionality, ensuring the reliability and high performance of web applications.

Javascript Teacher - Full Stack Developer

Plataforma 5, Argentina | 2018 - 2019

- Mentored over 70 students in full-stack programming, significantly boosting their coding proficiency and contributing to their successful bootcamp completion.
- Enhanced the company's website user experience as a Full Stack Developer, leading to increased sales and improved customer engagement.
- Facilitated workshops and personalized classes, and led team projects, applying agile methodologies to optimize learning and development processes.

EDUCATION

Plataforma 5, Buenos Aires, Argentina – Full Stack Developer
2018 (BootCamp in Javascript 600 hrs.)

University of Los Andes, Venezuela – Business Administration
2012 - 2016 (Seven Semesters.)

University of British Columbia, Canada– English
2011 (Intensive program-Medium level complete)

PROFESSIONAL SUMMARY

Passionate about web development, I enjoy solving tough problems and diving deep into front-end technologies and responsive design. . My journey began with a transformative bootcamp experience, where I stepped out of my comfort zone and discovered my passion for coding. As a committed team player, I value collaboration and enjoy bringing my perspective to projects.

SKILLS

- Javascript (ES6, TypeScript)
- HTML5,
- CSS3,
- Node,
- Express.,
- React,
- React-Redux,
- Recoil,
- Zustand
- React Native,
- Database (Mysql, DynamoDB)
- AWS,
- Material UI,
- Bootstrap,
- Tailwind,
- Chakra,
- Jest,
- Cypress
- Agile Methodologies

LANGUAGES

Spanish-Native
English- B2/C1
